

Killian Chandeze

Software Engineer

Kuala Lumpur, Malaysia

Methodical and detail-driven Software Engineer with 3+ years of experience building scalable systems across IT, supply chain, and finance. Motivated by continuous learning and delivering impactful solutions in finance and technology, with a focus on collaboration, problem-solving, and driving efficiency.

TECHNICAL SKILLS

Languages: C# (.NET, ASP.NET Core), Python, Java, JavaScript (React), TypeScript (Angular), R, HTML5, CSS, Bash, PowerShell

Databases: SQL (MS SQL, MySQL, PostgreSQL), NoSQL (Redis, MongoDB)

Backend & APIs: RESTful APIs, Entity Framework, LINQ, RabbitMQ

Infrastructure: Docker, Kubernetes, KVM, VMWare, NGINX, Terraform, SOPS

Cloud & DevOps: AWS, Azure DevOps, Git, CI/CD, Jenkins, Prometheus, Grafana, ELK Stack

Additional: Talend, SSIS, ETL, Tableau, Power BI, xUnit, Postman, Moq, SDLC, TDD, UML, Agile/Scrum

SOFT SKILLS

Analytical Thinking, Problem-Solving, Collaboration, Adaptability, Resilience, Customer Focus, Continuous Learning

LANGUAGES

French (Native)

English (C1 – Proficient)

CERTIFICATES

C# .NET Development – Microsoft

Python Development – Codingame

Blockchain Analysis – Udemy

Cybersecurity (Entry-Level) – UCA

English (C1 Level) – EF Education

Docker – Docker Foundation

PROJECTS

Backend Streaming Website – 2025

Crypto Scoring System – 2024

Production Flow Monitor – 2023

Logistic Decision Model – 2023

PROFESSIONAL EXPERIENCE

Freelance – Software Engineer

Dec 2023 – Jul 2025

↳ Remotely

Focused on designing high-performance software solutions with strong attention to scalability, maintainability, and deployment automation.

- Developed scalable backend systems in **C# (.NET Core)**, **Java**, **Python**.
- Designed **RESTful APIs** with **ASP.NET Core** and clean architecture.
- Built normalized **data models (3NF)** in SQL Server and optimized indexing.
- Collaborated on real-time crypto analytics using scoring algorithms.

AUSY – Software Engineer

Feb 2023 – Nov 2023

↳ Lorient, France

Contributed to an intralogistics platform by developing decision-support algorithms and client apps for real-time tracking.

- Engineered **supply chain optimization** algorithm, reducing delivery times by ~30%.
- Built a **C# WPF app (MVVM)** for tracking production using **EF** and **LINQ**.
- Designed and deployed microservices in **ASP.NET**, containerized with **Docker**.
- Delivered features through complete **SDLC** in agile environments.

Michelin – Software Developer & Data Analyst

Apr 2022 – Jul 2022

↳ Clermont-Ferrand, France

Developed and managed software tools for enhanced information processing, issue detection, and decision-making, working solo with total lead responsibility.

- Improved **Oracle PL/SQL** scripts, improving log processing efficiency by ~45%.
- Developed **C# WPF (MVC)** dashboard for real-time machine monitoring.
- Automated AD & DB management using **C# (.NET Framework)** and **PowerShell**.

EDUCATION

Microsoft – Certificate in Software Development

Sep 2022 – Feb 2023

↳ Remotely

Specializations: Software Engineering and Algorithm Design

Relevant Coursework: OOP, Problem Solving, Autonomous Agents, Optimization, Testing, Debugging, Git Versioning, Docker, .NET Core / .NET Framework

UCA – Bachelor of Technology in Computer Science

Sep 2020 – Jul 2022

↳ Aurillac, France

Specializations: Statistics and Business Intelligence

Relevant Coursework: Programming (Python, R, Java), Data Analysis, Financial/Statistical Modeling, SQL, Database Management, Algorithm, Cryptography

LP Camille Claudel – Specialized High School

Sep 2017 – Jul 2020

↳ Aurillac, France

Specializations: Computer Networking and Communication Systems

Relevant Coursework: Network Protocols and Architecture, Routing, Cybersecurity, Encryption, Server Management, IoT, Debian / Red Hat, VM, Cisco Certification, Docker
